

## 7 Connettore Zerynth per Odoo

Connetti facilmente qualsiasi macchinario industriale con Odoo.

La piattaforma Zerynth estrae dati da qualsiasi macchina industriale **in meno di 3 ore** e si integra perfettamente con il modulo di produzione di Odoo.

Dati estratti da qualsiasi macchinario industriale, integrati in modo sicuro con i moduli di Odoo

Implementazione e connettività flessibili

Visibilità completa sull'intero shop floor

## 7 Che cosa posso ottenere?

Soluzione plug-and-play, non invasiva, facile da implementare, sia on-premises che in modalità SaaS.

Facile estrazione dei dati dalle macchine industriali e connessione rapida con Odoo.

Scambio bidirezionale dei dati di produzione tra Zerynth e Odoo per aggiungere valore alla tua impresa.

### Sei un partner Odoo?

Sfruttando i dati provenienti dai dispositivi Zerynth, è possibile sbloccare nuove funzioni e automazioni con tutti i moduli abilitati di Odoo.

## Estrazione dei dati estratti dalle macchine industriali e connessione al centro di lavoro di Odoo

Il Connettore Zerynth per Odoo estrae dati preziosi dalle **macchine industriali, come lo stato delle macchine, gli allarmi, il tempo di lavoro, il ciclo temporale, il consumo energetico, i pezzi prodotti e quelli scartati**, connessi poi automaticamente al modulo di produzione di Odoo.

**Facile estrazione dei dati da qualsiasi macchina industriale e connessione rapida con tutte le versioni di Odoo.**

Zerynth for Odoo consente una rapida estrazione dei dati da qualsiasi macchina industriale (legacy e moderne). La piattaforma Zerynth è compatibile con **Odoo 14** e **Odoo 16**, con il modulo di produzione installato sia nella **versione community** che in **quella enterprise**. **Presto disponibile anche su Odoo 17!**

**Soluzione plug-and-play, non invasiva, facile da implementare.**

Con l'accesso remoto agli asset e una configurazione no-code, puoi gestire gli asset da qualsiasi posizione. La piattaforma Zerynth supporta inoltre qualsiasi opzione di connettività disponibile in loco (Wi-Fi, Ethernet e mobile) sia su sistemi moderni che legacy.

## A proposito di Zerynth

Zerynth supporta le aziende manifatturiere nell'efficientamento della produzione, incrementando il valore degli asset industriali interconnessi. Attraverso la Zerynth Industrial IoT & AI Platform, connette con approccio plug-and-play qualsiasi macchinario industriale in meno di 3 ore e in modo non invasivo, abilitando una completa trasformazione 4.0 con semplicità, velocità e sicurezza.

**CONTATTA I NOSTRI ESPERTI IOT!**
